Технические характеристики на беговые дорожки компании **GYMSTICK**

Walking Treadmill

Gymstick Walking Treadmill for everyone who know they should do something for themselves, they just don't have the time or mood for it. The Gymstick Walking Treadmill is slim, small and foldable, easy to bring front of the TV and then take it back to the closet.

How far you can walk with Gymstick Walking Treadmill in your working day?

Sitting for a long period of time unilaterally loads the body and inactivates the muscles. Changes in working postures, breaks in work and commuting during the day alleviate the symptoms of one-sided postures. An innovative and modern walking treadmill for office use where you want to invest in the physical activity and well-being of your employees. Stunning modern design combined with versatile features make the Gymstick walking treadmill safe and stimulating treadmill for active office work. Walking on the treadmill also keeps your mind refreshed, so you can do better at work and increase your work efficiency.

Gymstick WT develop lower body muscles, stimulate blood circulation and metabolism, and energy consumption. Walking treadmill comes with a remote control which makes it easy to adjust the function and speed of the mat. In addition, the device can be controlled by a mobile phone (Anroid / iOS). Information provided by the console: time, speed, distance, calorie consumption and steps. The walking treadmill is compact and lightweight so it fits easily into the workstation. The belt fold comfortably from the middle which make it easier to store and transfer.

- Maximum user weight 100kg.
- Product Size: 143.2 x 54.7 x 129 CM.

- Product weight 31 KG

WHAT PARAMETERS CAN BE EXPECTED?

- Loads up to 100 kg
- The device itself weighs only 31 kg, making it a crumb among other fitness trainers
- Remote control and mobile application control
- Minimum walking speed 0.5 km/h and maximum 6 km/h
- Child lock
- Overheat protection

CONSTRUCTION

Gymstick bet on simplicity, there is no complicated instrument panel, no handle. The whole device is mainly based on a quality design of the walking belt set in aluminum frames. IML surface treatment is used to form a metal surface front panel. An LED display for basic information is also placed on this surface.

MANIPULATION

The aluminum alloy is extremely durable, but also incredibly light. This and the ability to fold the belt into compact dimensions with a few movements, allows easy handling of the device. Small wheels built into the front panel can also be used to move. Belt storage is a breeze thanks to its compact size (0.5 m²). So after the workout, just slide the device under the bed.

CONTROL

How to control a belt without a classic panel? Simply by means of a well-arranged remote control that you can easily hide in your pocket. You will find the start / stop button, increase / decrease speed and switch mode. By linking the walking treadmill to your phone or smart TV, you can also view statistics and exercise logs.

TWO SPEED MODES

There are 2 exercise modes, the first includes manual speed control via the remote control. The more advanced mode is the patented Adaptive Speed Control, which automatically adjusts speed to your pace.

PACKAGE CONTAINS

- Walking Treadmill
- Remote control
- Charger and cable
- Key

Technical information

SKU TM-WPAD

EAN 6430062513615

Size (cm) 143,2 x 54,7 x 129

Weight (kg) 31

Materials Steel, PP, Iron, Rubber and PU

Additional information

Max. User (kg) 100

Note Size of walking area: 120 x 41,5cm

Includes Manual and installation parts
